FusionCharts V3 XML() . FusionChart 3.2skipOverlapLabels='0' .

FusionCharts Team FusionChartsflash .. First of all, I dont know the version of FusionCharts that JasperSoft is using. If it is version 3.2.1, then we have automatic fallback on HTML5 charts if the page is viewed from an iOS

FusionCharts 3.2 introduces interactive legends for all Pie and Doughnut charts. Each slice's label is shown as legend text along with the legend icon.
